Isave is a company with offices central, in Oslo, we operate and develop a cloud-based system for online marketing and marketing dialogue for modern businesses.

The company has customers in the Nordic countries and the UK, and is in a positive trend.

We want to expand our technical staff and are looking for hard working young people with good design understanding, expertise in C # and Microsoft SQL.

Working for Isave means that you will be working with the latest technologies, top developers and will have an impact and be a part of the development of the whole business.

Our main system is Microsoft based, but we also have smaller solutions based on MySQL and PHP, there is no disadvantage to know this too!

We are interested in all kind of applicants, with the competences described above.
