Gudbrandsdalens Uldvarefabrik AS was established in 1887 in Lillehammer Norway. Today, we are one of Europe's leading manufacturers of upholstery fabrics. We have all processes in-house using the best available technology. This means that we have a unique opportunity to develop and produce upholstery fabrics with the right colours, patterns, textures and technical properties. Our designs are presented in standard collections, and we develop and produce custom made upholstery fabrics for our customers. We build on the best of our 126 years experience and we always look forward. Our secret is to never stand still and always focusing on quality, design and environment.
